Take a trip to the outer edges of Ambient music and beyond with these 50 expertly crafted Serum pads, textures, drones and atmospheres, created using 86 custom single and multi-cycle wavetables sourced from classic analog equipment, acoustic instruments and abstract sound design sessions.

Each preset comes loaded with 4 Macro controls for you to quickly explore variations of the original sounds to make them your own and are complimented by 24 Cthulhu chord presets specifically composed to work with ambient sounds.

Whether you produce Cinematic, Chillout, Downtempo, Dream Pop, Post-Rock, Shoegaze, Ambient Metal or in fact any style which calls for detailed textural elements, an exploration of Outer Ambience may be just what your production needs.
